Education

Faculty of Science, Alexandria University

Oct. 2022 – June 2026

Bachelor of Science in Computer Science(GPA 3.9)

certificates

- Full stack .Net Developer(DEPI)
- .Net Developer(ITI)
- Angular codecademy
- ASP.NET codecademy
- Foundational C# with microsoft
- TypeScript codecademy

Relevant Coursework

- Algorithms
- software engineering
- Machine learning
- information Security
- Data Structures
- OOP
- parallel & distributed Sys
- Database

Experience

Digital Egypt Pioneers Initiative - DEPI

June 2025 – December 2025

Full stack .Net Web Development Intern

Alexandria, Egypt

- Engineered data-driven web applications using C# and .NET Core (Web API & MVC), delivering scalable back-end services with comprehensive unit testing.
- Crafted responsive front-end interfaces in HTML5, CSS3, and JavaScript, seamlessly integrating them with ASP.NET Core MVC for rich user experiences.
- Leveraged Docker containerization alongside Git/GitHub workflows to automate builds, manage version control, and streamline deployments.
- Designed and optimized SQL Server databases, authored functional documentation, and drove a capstone project showcasing end-to-end full-stack proficiency.

Projects

Artisan Archive - Handmade Marketplace | *Next.js, React, Tailwind CSS, Figma* | 🏠 github Repository June 2026

- Designed and built the entire UI/UX and frontend for a hybrid e-commerce and freelance platform using Next.js 16, React 19, and TypeScript, with full Arabic/English internationalization and RTL support, while coordinating task organization and leading manual QA testing across a 6-person team.
- Architected a scalable component system with shadcn/ui, Zustand for global state, and TanStack Query for server-state caching and data synchronization.
- Implemented a real-time artist-buyer chat interface using Laravel Echo and WebSockets, and integrated an AI chatbot powered by the Google Gemini API.
- Built a dynamic marketplace with advanced filtering, shopping cart, Stripe/PayPal checkout flows, order tracking, and a commission request negotiation UI.
- Developed artist dashboards including wallet & earnings views, product management, and social feed, with course enrollment scaffolded for a planned future release.

Furni - e-commerce platform | *ASP.NET Core, .NET Identity* | 🏠 github Repository

December 2025

- Built a full-stack e-commerce platform using ASP.NET Core MVC, Entity Framework Core, and SQL Server with clean MVC architecture.
- integrated Stripe payment gateway for secure checkout, saved payment methods, and transaction processing.
- Developed dynamic product catalog with variants (size, color, material) and real-time stock management.
- Implemented shopping cart, order management, shipping address handling, and order tracking features.
- Designed responsive UI with Bootstrap for seamless cross-device user experience.

Space-Tourism Website | *HTML, CSS, JavaScript* | 🏠 github Repository

September 2024

- a multi-page frontend application designed to provide an immersive and interactive experience for users interested in space tourism.
- Interactive navigation between pages.
- Dynamic content updates based on user interaction (e.g., planet details, crew profiles).
- Minimalistic and visually appealing UI inspired by space travel themes.

Technical Skills

Languages: HTML/CSS, JavaScript, TypeScript, SQL, C#, Java, python.

Frameworks:ASP.NET Core, Angular

Developer Tools: VS Code, VS, MS SQL Server, NetBeans, PyCharm.
